UNIVERSITY

Wed. Dec. 8, 1943

Dear Flo, Leo, & Ina,

Grades came out today. They weren't as bad as they could have been. Although I didn't raise my average any, I didn't lower it. I stayed exactly the same. Here they are.

math	B	history	A
physics	B	English	B
chemistry	B	geography	B

That's better than average but I should do a little better than that.

Saturday I'm going down to pick a proof for your picture. The reason it is taking so long is that I can only go down there over the week-end, and I missed last week. It will take another week for the finished picture. Glad to say that the three dollars came in

TURN
→

very handy, but sorry to say that I won't have it (in fact it's gone already) by the time the pictures are ready. You won't mind paying double will you? It's for a good cause.

I received a card from Maun + Rhya — it was shocking, but pleasantly so. I wonder what effect a letter would have. Maybe they are softening me for the blow by sending a card first.

Got 's of studying tonight
— so long.

Love
Hersk
