

Apr. 27

Dear Mrs. Rudis,

I was so pleased to hear from you and to learn that Mursie's letter was written as recently as Jan. 17th. I have watched the papers eagerly and noticed that Slating IVB was ^{liberal} - it did not mention Muehlberg - but I presume that it is the same.

I hope that you have received further information by this time - although the commentators tell us that the task of tabulating the records and notifying the families is colossal - and

that we must be patient! One
would think that we had
learned that lesson by this time!

I had hoped to hear from
Bob before I wrote you - but
feel sure that he has received
your letters by this time. He
mentions it in every letter and
always expresses the conviction
that he will see him again.

Bob is one of a "team" of six
of "improved service" men, who
are "auditing and checking" -
whatever that means - different
army divisions. It is
astounding how little they
can + do tell us about

themselves isn't it!

He seems to be well and
happy to be still contributing
to the war effort. His
headquarters in Paris and
wouldn't it be wonderful if
~~the~~ + Hersh could meet there!

Thanking you again
for writing, I am

Sincerely yours
Edith M. Hall
